Summary

I am a Computer Science student currently studying at Pratibha College of Commerce & Computer Studies . I have a good understanding of computer science basics and am learning programming language like Python. I' m working on my coursework and personal projects to get better at things like software development and web development. I am quick to learn new things and enjoy solving problems. I also work well in a team. I' m excited to use what I' ve learned in real-world situations and be part of exciting projects.
